```

## Programming Skills

---

### LANGUAGES

- SQL (Highly adept, 4 years)
- R (Highly adept, 3 years) {tidyverse, stats, MASS, custom functions}
- SPSS (Proficient, 500 hours)
- STATA (Proficient, 300 hours)
- Python (Working knowledge, 100 hours) {Beautifulsoup4}

### TECHNOLOGIES

- Git (Adept, 1+ year)
- Microsoft SQL Server (Highly adept, 4 years) {SSMS, SSRS, T-SQL}
- MySQL (Highly adept) {Workbench}
- R Markdown (Experienced, 2+ years)
- Microsoft Visio & LucidCharts (Proficient)
- OpenStreetMap (Proficient)
- R Shiny (Working knowledge, 10 hours)
- Hadoop (Working knowledge, 50 + hours) {Hive, Impala}
- Tableau (Working knowledge, 50 + hours)
- AWS (Cloud Practitioner certification forthcoming){Redshift}

## Education

---

### University of Wisconsin - Milwaukee

Milwaukee, Wis.

B.A. IN ECONOMICS, GPA 3.73

2010 - 2015

THESIS: "How Has the Black-White Health Gap Changed Over the Last 40 Years?"

## Work Experience

---

### Direct Supply, Inc.

Milwaukee, Wis.

ANALYTICS ADVISOR, DATA SCIENCE

March 2017 - PRESENT

- Estimated causal effect of a new product line on program margin using bayesian structural timeseries models (in absence of randomized experiment) (R::CausalImpact).
- Predicted date range a Skilled Nursing facility is to be inspected with 85% accuracy using Stratified Cox survival model (R::survival).
- Designed, built, and evaluated a system that generates recurring monthly call and email campaigns by targeting customers most likely to buy in timeframe using logistic regression. Achieved XX % increase in clicks and XX% increase in purchase rate over holdout group in first 12 months in production (R::stats::glm).
- Automated the analysis of a biannual Net Promoter Score survey in R (was living in SPSS), reducing 280 hours of work from 1.5 FTE's to 14 hours of work by 1 FTE using custom-developed library of R functions.
- Predicted the topic(s) of a document based on its words using LDA Topic Modeling within first 30 days of joining team so engineering could trigger real time advertising based on words entered by users of mobile app (R::topicmodels).
- Visualized time series of customer lifecycle (new, full, lapsed) of all eCommerce customers to help eCommerce team meet KPIs (R::TraMineR).
- Estimated opportunity cost of discontinuing support of Internet Explorer 8.

## Direct Supply, Inc.

Milwaukee, Wis.

BUSINESS INTELLIGENCE ANALYST, BUSINESS INTELLIGENCE

Dec. 2015 - March 2017

- Authored an Abandoned Shopping Cart Report that informed sellers when customers in territory placed product in shopping cart but hadn't purchased yet. Led to XX% increase in sales.
- Authored complex SQL queries/views/functions and reports to meet key KPIs, which varied across teams, departments, and business units.
- Acted as an advisor to stakeholders by having knowledge of data structures and system capabilities.

## Direct Supply, Inc.

Milwaukee, Wis.
